

QUALITY POLICY

At GESEX S.A., we manage processes considering the context in which we operate and the stakeholders that influence our business.

Our strategic vision focuses on achieving the satisfaction of our growers and receivers abroad, seeking new partners who can contribute to their compliance, and establishing strong commercial relationships to maximize returns for growers.

We focus our efforts on complying with current legal requirements and achieving quality objectives, with a focus on continuous improvement of our management system.

We are committed to delivering a safe, high-quality product that meets our customers' expectations and safety requirements.

We are aware of the importance of the work of our employees, and we ensure compliance with the necessary health and safety measures to guarantee a safe working environment.

We foster competent and committed teams that are dedicated to the company's objectives and promote respect and ethics among our employees.

We understand the impact we have on the environment and the community. Therefore, our strategy also focuses on implementing sustainable processes that consider the balance between economic, social, and environmental responsibility.

Christian Gwynne R.
Gerente General de Gesex S.A.
